Acoustic

A solution for open spaces

General Highlights

1

Axel offers innovative workstation configurations that naturally combine individual and collaborative work.

2

Pavilions allow to design meeting zones, respite rooms, private office, etc.

3

The extended choice of finishes (laminate, felt, acrylic and fabric) provides high design flexibility.

4

Ambient noise management is improved with the acoustic fabric and felt tiles, and the slated ceilings with acoustic felt.

5

Axel offers efficient electrical wiring and cable management.

6

A new Grade A fabric card, available at competitive prices, is now offered to customize tiles.

A solution for open spaces

Product flexibility

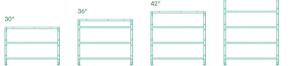

Stackable frames

Stackable frames available to add to base frames to reach the maximum height of the 90" pavilions.

Base frame heights

30", 36", 42", 54", 66"

Stackable frame heights

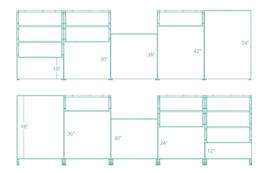

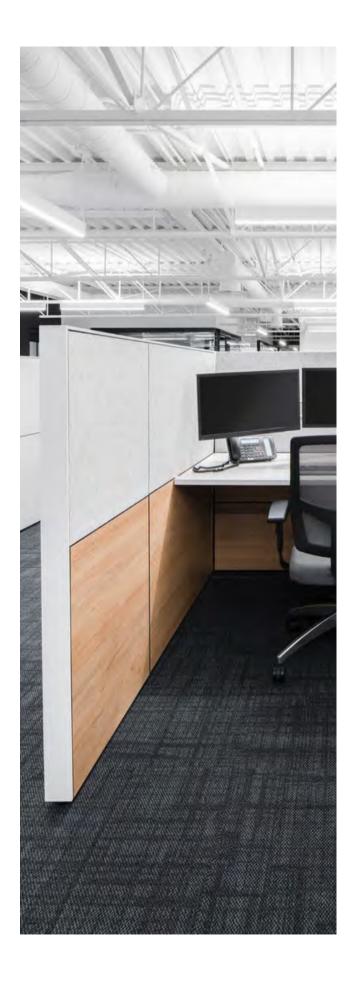

Tiles and frames

The adaptability and versatility of Axel's tiles and frames allow for a variety of configurations of the workspace.

Technology integration

Attachment system with several holes can be used with a large variety of television mounting brackets.

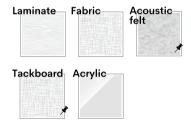

A solution for open spaces

Product flexibility

Versatile materials

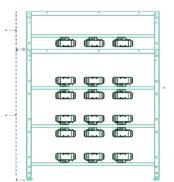

Base frames are assembled in steel to support various sizes of tiles in different materials such as laminate, fabric, acoustic felt, and tackable fabric.

All Artopex finishes are available for this collection.

Electrical outlets

There are 3 levels of height positions for the use of electrical and communications outlets.

C - On top of surface

B - Under surface

A - Ground level

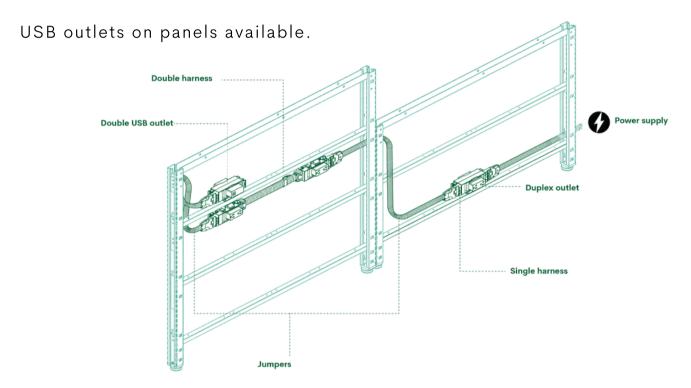

A solution for open spaces

Electrical System

Circuit flexible electrical system. Power through the base or by cable pole.

A solution for open spaces

Axel workstation and multimedia meeting room with laminate tiles.

Workstations with laminate panels, straight profile leg and glass privacy screens inserted into the structure.

A solution for open spaces

Combined workstations: individual workstation and collaborative space. Open frame with rounded shelves.

Workstations with laminate panels and laminate tiles pavilions.

A solution for open spaces

120-degree workstations.

Individual workstation with acoustic fabric tiles.

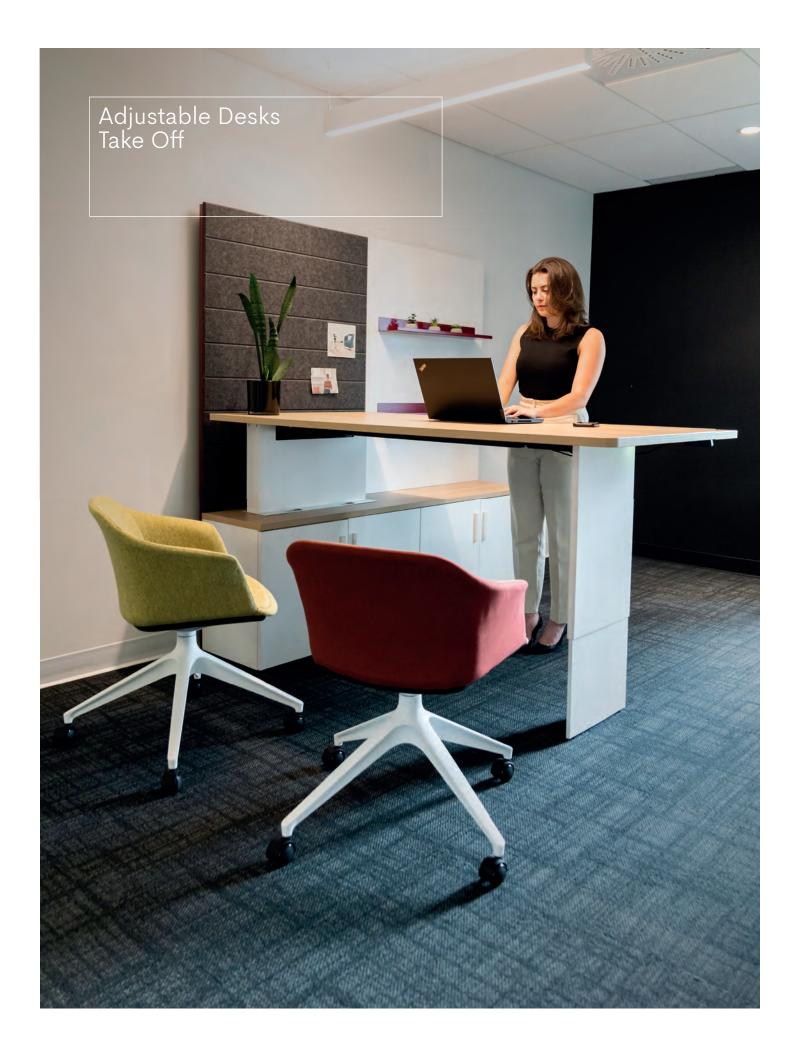

A solution for open spaces

Axel workstations with adjustable tables and surface multi-outlets to create nomadic workstations.

Axel lounge pavilion.

Refined design

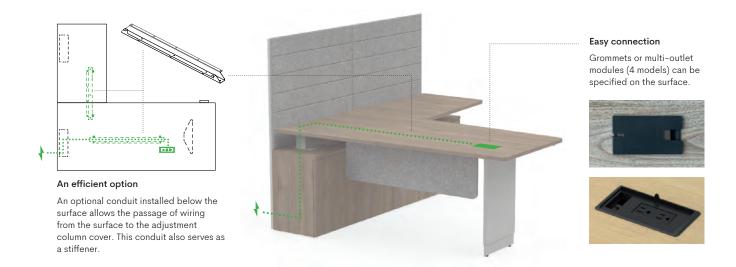

Our Take Off adjustable desks collection: a refined design combining aesthetics, ergonomics, and high quality for impeccable furniture.

Ingenuity

Our adjustable desks optimize your workspace with a proven height adjustment mechanism, practical storage options, and storage-supported panels available in a variety of finishes. Hasslefree cable management for electrical and communication wiring is made possible through multiple designated wire troughs and channels.

Ingenious storage

Storage with space at the back concealing the adjustment column and allowing for wiring passage. A back panel can be specified for a neat finish.

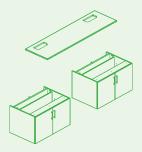

Simplified specifications

Selection of configurations with components thoughtfully grouped together, making it easier to specify a layout.

The desks are specified in pre-established configurations including surface(s), leg(s), and adjustable column(s).

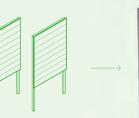

Storage units

Wide range of storage options, with or without space at the back allowing for the passage of the adjustable column. Tops also specified separately for geater customization

Storage-supported panels

As a convenient option, the storage-supported panel is available in multiple formats and finishes. It can be specified for furniture from the Take Off collection.

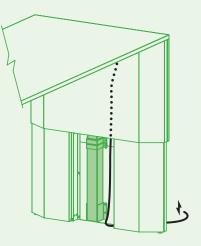

Digital keypad

Multifunctional digital keypad for a surface adjustment range between 26 1/8" and 47 1/2" in height. Programming up to four positions is possible

Concealed cabling

Practical components such as the under-surface stiffener and leg cover allow discreet routing of wiring to the wall or floor source.

Infinite configurations

Available in a wide range of components, this collection combines elegance and functionality to create a stylish and efficient workspace!

Meeting Room

Take a seat around a bistro Mediacom table for a productive meeting. Specially designed to mount a monitor screen and to manage cabling efficiently, the tables come equipped with a cutting-edge linked communication system to facilitate the sharing of ideas and information.

Downtown

Mediacom bistro table in Douglas Pine laminate.

Furniture

Blitz stools and Vortex office chair.

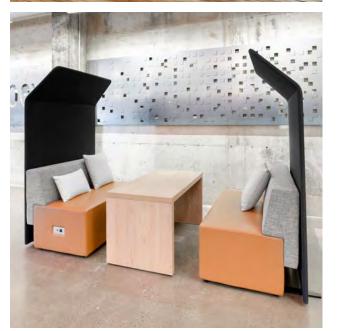

The fabric upholstered tables provide

Benches with backrests and upholstered table with laminated top.

The mobile white marker board is an essential tool for collaborative meetings and brainstorming sessions and can also be used to divide the space.

Mobile white marker board.

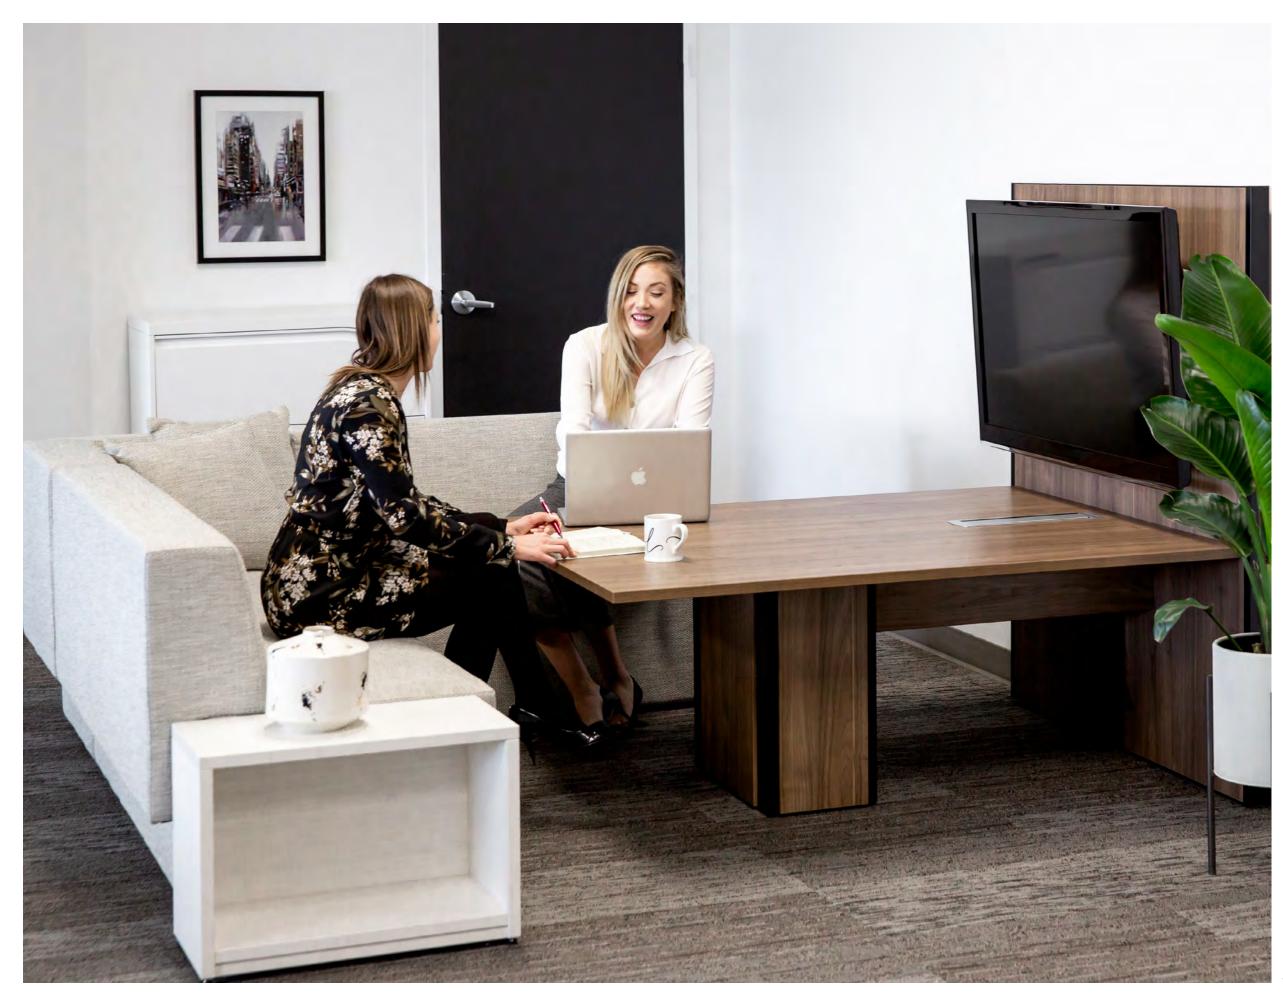

Privacy screens are available vertical, angled-top or with a shelf. Usually placed behind a seating unit, the fabric upholstered screens offer different degrees of privacy thanks to the three available heights.

Rectangular benches with multi-outlet on the side and backrests, angled-top privacy screens and bistro table.

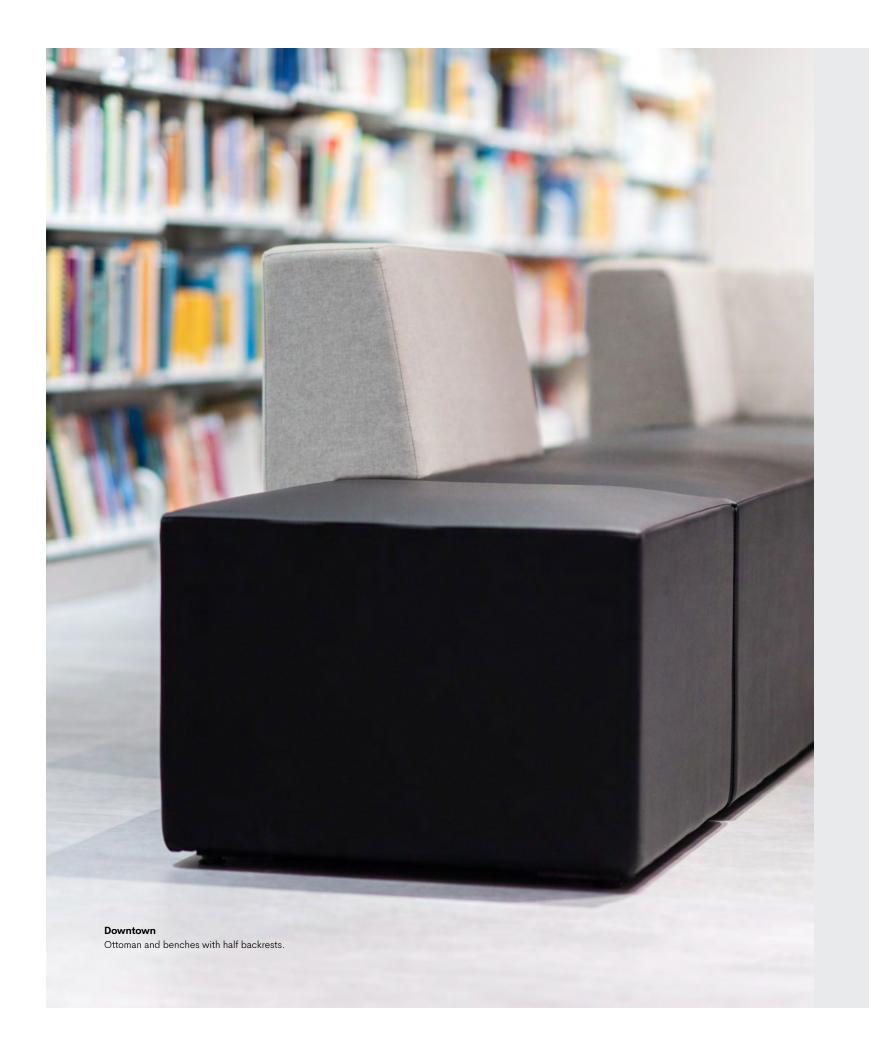

Relaxed Meeting

Benches and ottomans are available in various shapes and sizes, allowing for configurations adapted to your needs. Combine benches with a Mediacom table to create a functional multimedia space for your team.

Downtown

Mediacom table with architectural base in Chestnut laminate, benches with backrests and open storage in White laminate.

Power up your exchanges

The integration of built-in multi-outlets ensures efficient power cable management. The result: a functional space that accommodates technology.

Meeting table

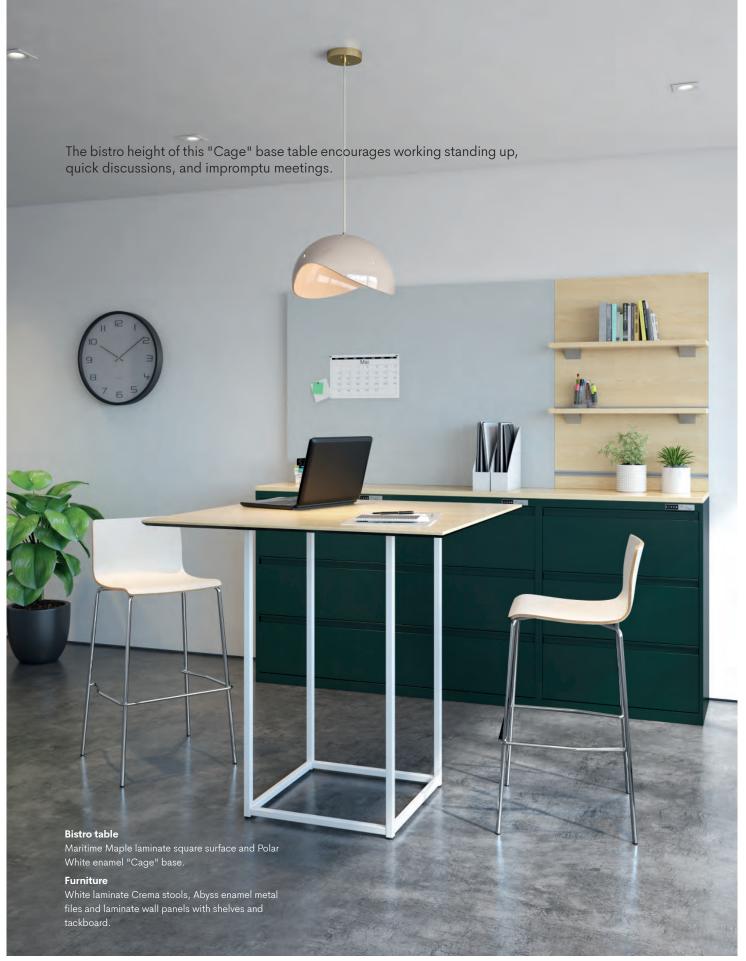

Sesame laminate rectangular surface and Polar White enamel folded metal corner legs.

Furniture

Dotcom chairs and Polar White enamel metal lateral files.

Classic look

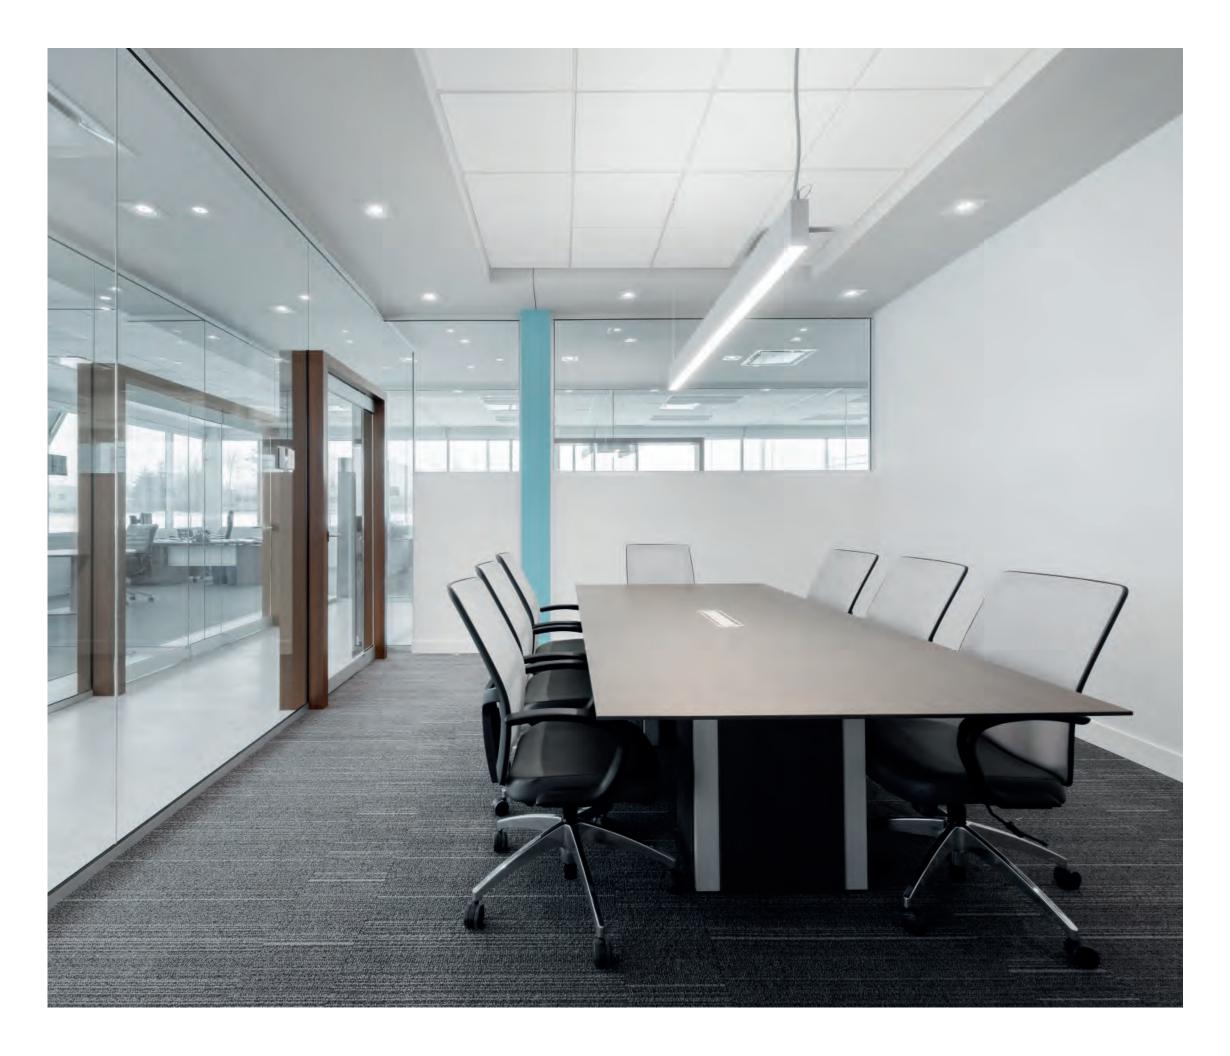

Opt for a table with an architectural base and add some prestige to your meeting rooms. Timeless and classic, this base will set the tone for a sophisticated atmosphere.

Carbon laminate surface with rectangular architectural bases.

Furniture

Vortex Mesh chairs.

Bistro table

The Bistro table can be used in several ways, either as a bistro table in cafeterias, as a conference table or as a Mediacom table. Its design and sturdy construction will make this table your go-to for many years.

Full Width "T" Leg

This type of base offers incomparable solidity, without stiffeners. For a distinct look, the leg can also be in a different color than the table

The wiring management is very subtle and is done through the end panel.

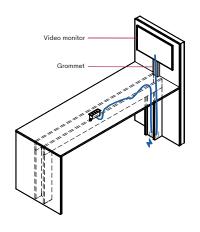

The mediacom bistro table encourages collaborative work, both on site and remotely, with its wall panel allowing the addition of a monitor.

Multiple configurations

The Bistro table can be specified in different widths, lengths and heights, allowing for integration into many different types.

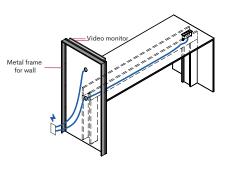

The wall can be made wider and higher to suit your needs. A grommet can also be specified on the front for electricity.

Electricity

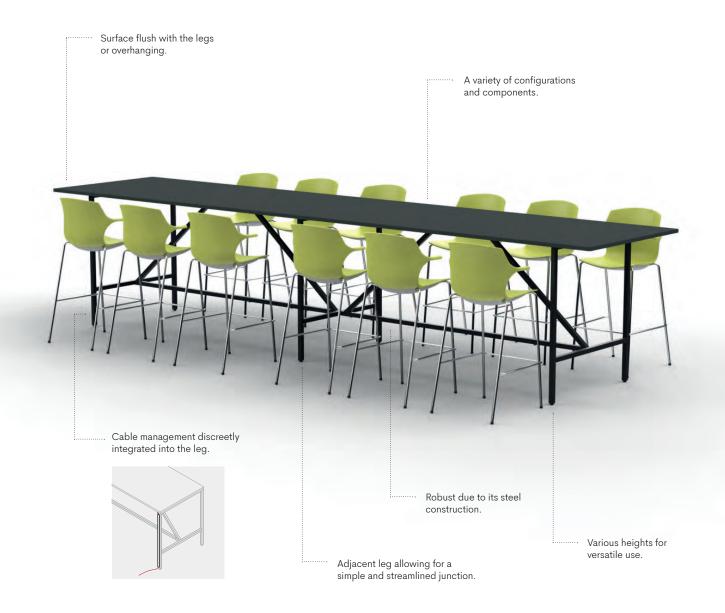

The back of the wall can also be equipped with a metal frame, allowing for easy integration of electricity, with no visible hardware or wires!

Pub table

A collection of Pub tables with multiple configurations!

Its base, available in all Artopex metal colors, can be specified in three different heights, offering great style flexibility with or without overhanging surfaces on two or four sides. Ideal for collaborative environments, it enables endless work configurations using adjacent bases.

Pure elegance

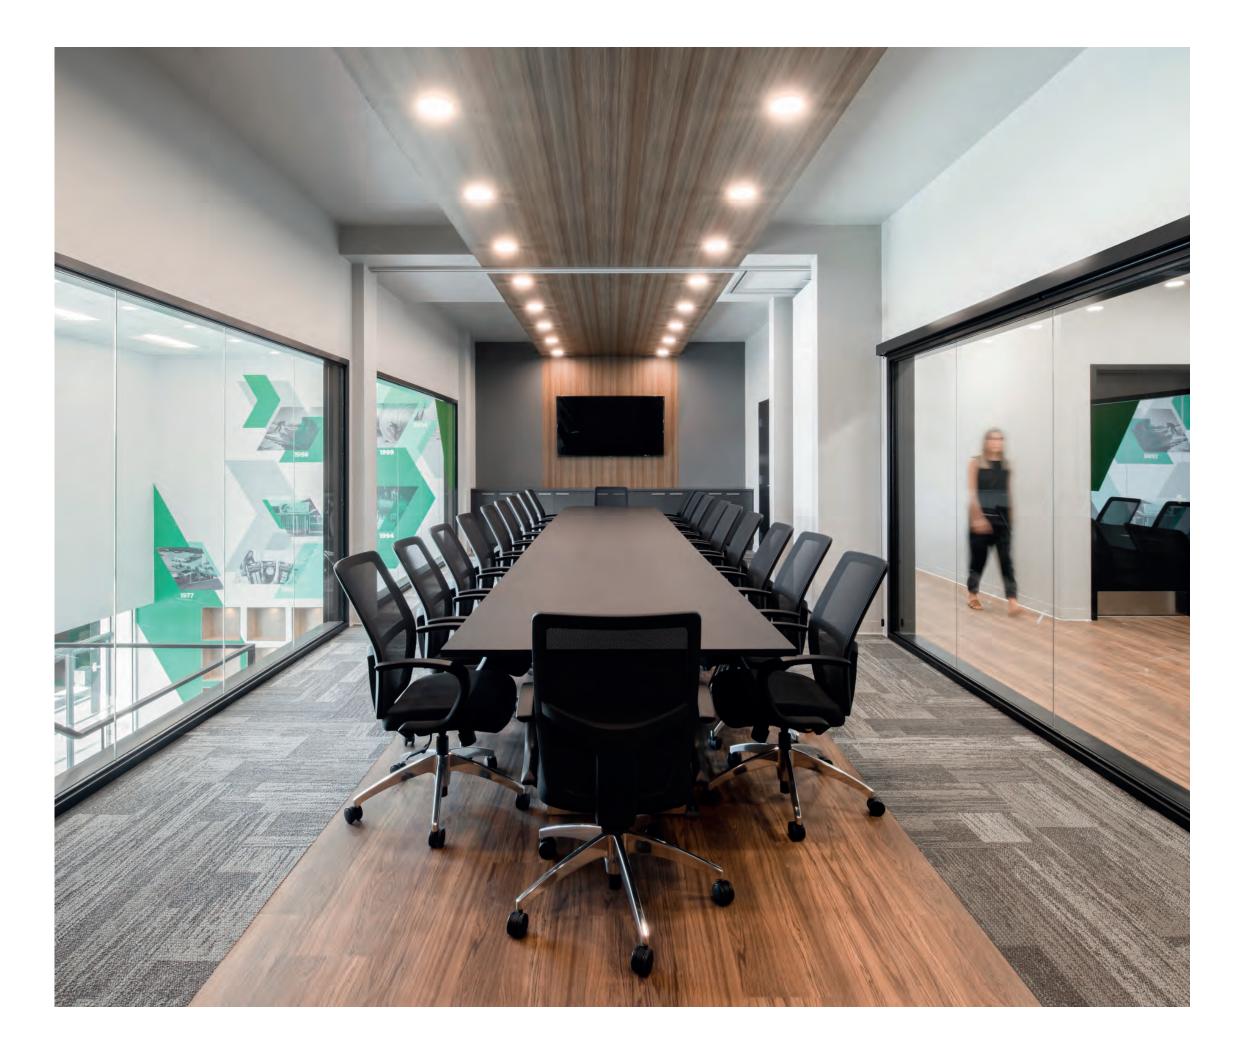

Up to 192" in lentgh, standard conference tables can welcome many participants during formal meetings. The aesthetics of this table's Fenix Matte Black combines elegance and timelessness.

Fenix Matte Black laminate surface with rectangular architectural bases.

Furniture

Vortex Mesh chairs.

Sharing ideas

Socialization areas break up the rhythm of traditional offices and offer professionals a place for spontaneous meetings and collaboration. Integrating a Take Off Conference table into these spaces encourages knowledge-sharing and optimizes the emergence of new ideas.

Conference table

White laminate rectangular table with Black enamel tubular legs and round base plates.

Furniture

Frill chairs, Black shells and White laminate Crema stools.

Collaboration for better creation

Integrating Take Off Conference furniture creates practical environments where your teams will stay motivated and inspired. The modular table, with a clean design and natural wood legs, gives rise to a limitless creative space.

Cable Management

The Genius table collection is truly multi-purpose. They are available with fixed, flip-top or height-adjustable surfaces. Whether for training, conferences, business meetings or brainstorming sessions, Genius can be reconfigured in no time at all. The tables are designed to be nested vertically with ease and for wire management as needed.

Colorful

Visible metal components (legs, finishing caps, cable trays and metal doors) are available in all Artopex enamel finishes.

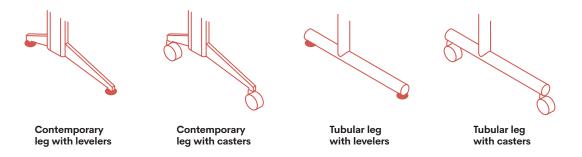

Efficient Space Management

Legs and Footings

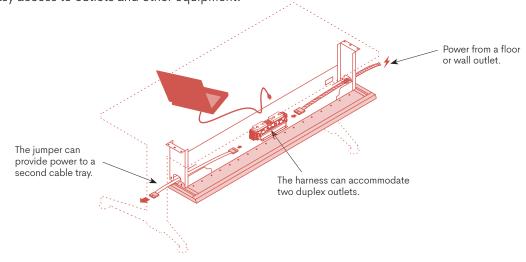

Two distinctly different leg styles are available on the Genius table with either levelers or casters. Flip-top tables are always equipped with casters for easy storage.

Power management

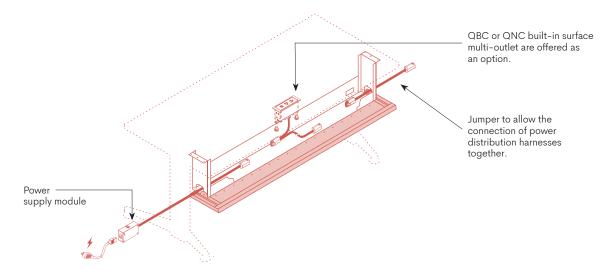

Four-circuit electrical system

- · Allows for efficient wire management.
- Can be fitted with a flip access panel that also serves as a modesty panel.
- Easy access to outlets and other equipment.

One-circuit electrical system

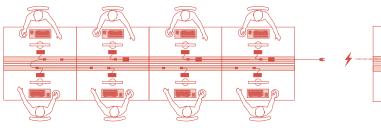

- Simple installation with no need for an electrician.
- Up to 8 surface outlets (16 individual outlets) can be connected to one system.
- Easy access to outlets and other equipment.

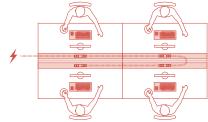

One-circuit electrical system

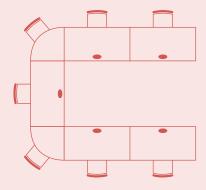

Can power up to eight tables on the same circuit.

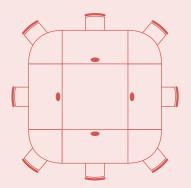

Four-circuit electrical system Recommended for permanent installations.
